PROPHETS, NOMADS AND A FOURTH TURNING ACCELERATING TOWARDS A BLOODY CLIMAX

"In retrospect, the spark might seem as ominous as a financial crash, as ordinary as a national election, or as trivial as a Tea Party. The catalyst will unfold according to a basic Crisis dynamic that underlies all of these scenarios: An initial spark will trigger a chain reaction of unyielding responses and further emergencies. The core elements of these scenarios (debt, civic decay, global disorder) will matter more than the details, which the catalyst will juxtapose and connect in some unknowable way. If foreign societies are also entering a Fourth Turning, this could accelerate the chain reaction. At home and abroad, these events will reflect the tearing of the civic fabric at points of extreme vulnerability – problem areas where America will have neglected, denied, or delayed needed action." – ***The Fourth Turning – Strauss & Howe***

"Don't think you can escape the Fourth Turning the way you might today distance yourself from news, national politics, or even taxes you don't feel like paying. History warns that a Crisis will reshape the basic social and economic environment that you now take for granted. The Fourth Turning necessitates the death and rebirth of the social order. It is the ultimate rite of passage for an entire people, requiring a luminal state of sheer chaos whose nature and duration no one can predict in advance." **– Strauss & Howe – The Fourth Turning**

In my last **Fourth Turning article**, a few days before the presidential election, I stated Trump would win in a landslide, unless the **Deep State** pulled some outrageous stunt to steal it, like they did in 2020. Their cheating machines were unable to overcome the dementia dummy effect and running a vacuous cackling moron DEI candidate as Trump's opponent. I also thought the ingrained opposition would use all their vast ill-gotten financial resources to pay for violent protests, if Trump won. The gutting of USAID has defunded the domestic terrorists and made their protests pathetic.

Trump's overwhelming victory in the election and defeat of the illegal lawfare attacks from his **Deep State** enemies defused their ability to keep him from being inaugurated. And boy did he hit the ground running. His first 7 weeks in office have been a tornado of executive orders, shockingly bold cabinet picks, mass firings of government drones, deportations of illegals, tariff wars, threats to take over Greenland and Canada, confrontations with world leaders, war on DEI and woke bullshit policies within the government and at universities funded by the government, and unleashing Musk and his DOGE team on the Federal bureaucracy.

"Einstein Wrong and Special Relativ

The dynamics of this Fourth Turning have begun to crystalize in my mind with the re-ascension of Trump to the most powerful position in the world, and now willing to wield his power on a far grander scale then he did during his first term. The previous two Fourth Turning presidents, during the Great Depression/World War II Fourth Turning and the Civil War Fourth Turning, acted like dictators, wielding their authoritarian powers, using war as the excuse for overstepping their Constitutionally granted authority.

Ruling by executive order has now become commonplace, as our Republic has degenerated into a corporate fascist totalitarian state where the spoils have been shared by the privileged few, while the rest of us have been propagandized into subjugation, depravity, debt, and debasement. Trump has assumed a dictatorial attitude, with the rationale that he must do so to defeat the evil forces of the **Deep State**, and more than 50% of the population is enthusiastically onboard.

There is generally no middle ground when it comes to Donald Trump. You either despise him and scream he is literally Hitler, or you worship him as the savior of America, leading us to a glorious renaissance. Personally, I find myself in the middle ground, based on what he has done, rather than what he says. I was disappointed in his first term, even though he did a number of good things. His personnel choices were awful, putting Barrett on the Supreme Court was a terrible selection, and locking down the country while making a deal with the devil (**Fauci & Pfizer**) to produce a toxic vaccine destined to kill far more than it saved, continues to be a massive blemish on his record. But what is done is done. Even the most skeptical cynic has to admit, there have been several positive developments in Trump's second term.

The issue which had biggest impact in getting Trump elected was the border and the democrat plot to destroy America by funding the invasion of America by 3rd world dregs. The dementia dummy president was given ice cream and told to stand aside by his Obama handlers, while millions of lowlifes poured across our southern border. Trump's selection of **Tom Homan** as border czar was brilliant, and the actions taken to secure the border thus far have produced dramatic results. We need millions more deportations, but we are off to a good start.

Trump learned his lesson from the first term, when he surrounded himself with Deep State backstabbers, while failing to purge the departments of his enemies. He has appointed highly competent outsiders into most of the key cabinet positions. The DC bureaucracy is being gutted as we speak, if not by his appointees, then by **Musk** and his DOGE army. Purging the swamp of his bureaucratic enemies is essential to achieving progress. And purging the judiciary of far-left apparatchiks on the payroll of **Soros** must be next.

We are told the speed of light cannot be exceeded. What if that is wrong? What if Einstein was wrong and the theory of General Relativity is incorrect? Could that open up a whole new world of possibilities?

In May 2025 The Alternative View returns to Glastonbury where Roger Anderton will be asking those questions and putting forward an exciting new model.

Roger Anderton is from the John Chappell Natural Philosophy Society – a group that was formed on the idea that Einstein's relativity is wrong (especially special relativity is wrong). In relativity there are many paradoxes (such as twin paradox) which are really contradictions; thus the believers in relativity are talking nonsense. In trying to get this information out to the general public we have found our voice has been mostly blocked.

For first time in UK we are presenting publicly the film Einstein Wrong by David de Hilster which has been prevented from being shown at film festivals. Physics has been corrupted by relativity nonsense.

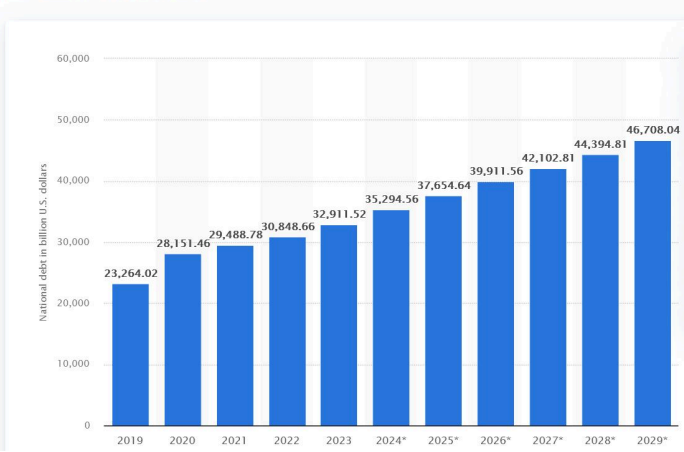
There truly is $2 trillion in spending that can be cut. Going back to 2019 spending levels, before the "Covid emergency spending" should be the goal. The amount of corruption, bribery, and fraud within the Federal government is astronomical, and **Musk** and his DOGE unit should be applauded for lifting the rocks and shining a light on these maggots. DOGE claims to have saved $130 billion thus far. That sounds like a lot, and it is. But some perspective will reveal the true nature of our predicament.

The Federal government spends $130 billion per week on average. We add over $5 billion to the national debt every single day. This tsunami of deficit spending is a perpetual uniparty supported machine. The continuing resolution jammed through by Trump and his minions increases spending. DOGE is great PR for the Trump army, and it is the perfect bogeyman for his enemies. But, it is unlikely to materially alter the course we are on. The national debt was $36.2 trillion when Trump assumed control. There is no doubt it will exceed $44 trillion before he leaves office.

United States: National debt from 2019 to 2029

(in billion U.S. dollars)



There are 135 million full-time workers in the U.S., and approximately 18 million of them work for the government. Many millions more in private industry are dependent upon government contracts to sustain them. I am 100% onboard gutting government bureaucracy. But there will be consequences. Data from Washington DC is already showing a plunge in home prices and surge in unemployment. The combination of layoffs, reduced government outlays, and tariff impacts will likely push us into recession during 2025.

Taking the pain in year one of his administration may be Trump's game plan, with an anticipated strong recovery in the 2nd half of his presidency. The question is whether the recession will deflate the everything bubble – stocks, bonds, real estate, and crypto, or just be a bump in the road to long term prosperity. With valuations in all asset classes at nosebleed heights, I expect a major correction across the board. Whether a recession and correction turn into a depression and crash will depend upon the behavior of our leaders.

At each of these great gates of history, eighty to a hundred years apart, a similar generational drama unfolded. Four archetypes, aligned in the same order – elder Prophet, midlife Nomad, young adult Hero, child Artist – together produced the most enduring legends in our history. Each time the Grey Champion appeared marked the arrival of a moment of "darkness, and adversity, and peril," the climax of the Fourth Turning of the saeculum. – **The Fourth Turning – Strauss & Howe**

There has been much debate since Trump descended on the escalator in 2015 at Trump Towers as to whether he was one of the Grey Champions of this Fourth Turning. I had my doubts after the 2020 election was stolen, but his re-ascension to power in 2025 leaves no doubt he is the lightning rod for what will take place in the final stages of this Crisis period. Trump, **Putin** and **Xi Jinping** are all from the Prophet generation and have assumed the mantle of Grey Champions for their nations.

How these men interact over the next several years will determine the course of this Fourth Turning. Thus far, the skirmishes in Ukraine and the Middle East have been relatively contained. Fourth Turning climaxes have been historically bloody and devastating. If China invades Taiwan, North Korea invades South Korea, or the EU pushes Putin too far, that will surely spur mass destruction and mass casualties on a grand scale. And with nuclear technology far more advanced since WWII, the possibility of planetary destruction is not a zero possibility.

Generation	Birth Year	Archetype
The G.I. Generation	Born between 1901–1924	Hero
The Silent Generation	Born between 1925–1942	Artist
The Boom Generation	Born between 1943–1960	Prophet
Generation X	Born between 1961–1981	Nomad
The Millennial Generation	Born between 1982–2004	Hero
The *Homeland* Generation	Born between 2005–?	Artist

Fourth Turnings can have multiple regeneracies with the first being when the financial system was artificially propped up by the Fed and Treasury in 2009, making the financial system far less stable over the long-term and setting the stage for the grand collapse. The regeneracy cannot always be identified with a single news event. But it does have to mark the beginning of a growth in centralized authority and decisive leadership at a time of great peril and urgency.

Trump's actions during his first 7 weeks back in office most certainly classify as a regeneracy, through executive orders, mandates, and decisive actions, designed to undo all the purposeful destruction incurred under Biden. The reaction of his enemies, using lawfare, their media mouthpieces, and judicial roadblocks, has ratcheted the anger and vitriol within the country to a boiling point.

The blowback from the Trump/Musk agenda of slashing Federal bloat, firing government drone bureaucrats, dismantling corrupt, treasonous organizations hidden within the Federal bureaucracy (**USAID**), eliminating ineffective departments, like the Department of Education, and trying to root out corruption and waste, has been predictably violent. The burning of Tesla dealerships, coordinated anti-Musk messaging from the captured mainstream media, and artificial protests across the nation are all funded by **Soros** and his ilk, just as the fake **BLM** protests were used to destroy Trump's first term.

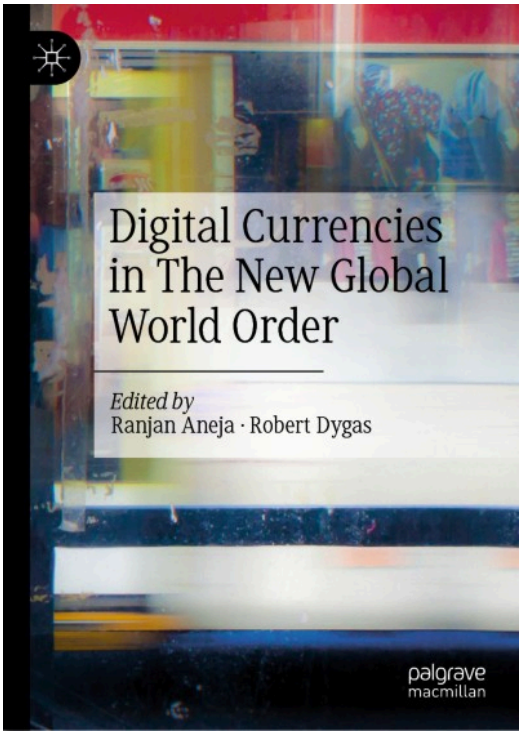
Every executive order designed to rectify the purposely created border invasion, cut waste, fraud, and corruption within the Federal government, along with the purging of agencies of his enemies, has been met with judicial obstruction by judges placed in positions of power by Soros and the lawfare army created by **Obama** and his minions. The term Constitutional Crisis has been overused, but I believe we are headed for a clash that will not resolve itself through the existing legal system.

The judiciary can no longer be expected to interpret the law in an unbiased manner based upon the Constitution. When Trump decides to ignore the rulings of this plethora of corrupt judges, what happens next? The so-called judges thwarting Trump at every turn are not interpreting the law, they are exercising activist political prerogatives which they have been paid off by **Soros** and his lawfare organizations to sponsor.

From my perspective, the world has become more chaotic and confusing on a daily basis since Trump's election. From a Fourth Turning perspective, this is to be expected. The Crisis never resolves itself through compromise or an agreed upon peaceful resolution. The cascade into a spiraling downward implosion of trust in institutions, politicians, media talking heads, corporate titans, and central bankers is leading the country and world towards a catastrophic debt collapse which will plunge the world into a global depression.

Whether this has been pre-planned by the ruling oligarchs to invoke the **Great Taking**, the new world order, and **CBDCs**, is still a question in my mind. Is Trump a willing participant in this diabolical plan or a well-intentioned patsy they are manipulating with his MAGA army to ensure their plan goes off without a hitch?



What is clearly evident to me, is the globalist cabal ruling elite are absolutely trying to thwart Trump and Putin's peace efforts in resolving the Ukraine war. They are using every opportunity to provoke Putin into starting WW3 with NATO and forcing the U.S. to honor our treaty obligations. Their desperation is obvious, as the discredited and highly unpopular stooges governing France, the U.K., Canada and Germany make unhinged statements and threats on a daily basis, threatening war with Russia.

Putin is the only statesman, operating in a rational manner, and attempting to negotiate a sane outcome to a conflict initiated by **U.S. neocons in 2014**. This global crisis will just be exacerbated by the brewing Constitutional crisis being precipitated by the Deep State operatives and their judicial machinations, designed to force Trump into initiating a violent response to Soros and his bought off treasonous judicial cronies.

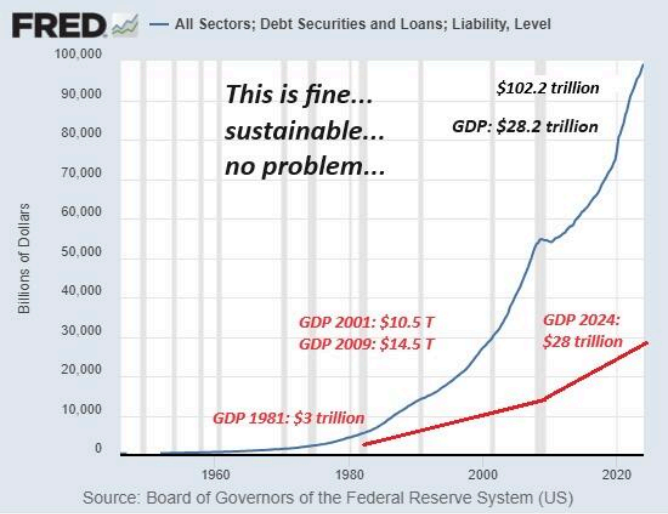
Ukraine's 2014 coup was CIA's political mistake — Putin

The Russian president noted that the US agency had achieved its goal of changing the government but failed to see what it would evolve into

Trump's rhetoric about a glorious new era of economic nirvana, built upon tariffs, lower taxes and energy independence sounds great, but it is nothing but pie in the sky pipe dreams. It's too late. Talk about balancing the budget is nothing but bloviating bullshit. Trump and his economic gurus have no intention of balancing the budget, because doing so would lead to the worst depression in history.

This entire Ponzi economic house of cards depends upon the issuance of $6 billion of debt PER DAY. Our fake positive GDP growth data depends on the government spending $5 trillion of printed fiat (17% of GDP) per year on wars, welfare, and waste, with the ignorant brainwashed masses spending $19 trillion of money they don't have (using credit cards) on shit they don't need making up 68% of total GDP.



notes by Charles Hugh Smith www.oftwominds.com June 2024

Meanwhile, financial markets are at historically high (and dangerous) levels, home prices are at all-time highs, real inflation has been pushing 10% for the last five years, credit card, auto and student loan debt are at record levels, and most importantly, gold continues to hit new record highs every day. The stock market is wobbling like it normally does as a precursor to a crash. Home sales are at decade lows as sky high prices and higher mortgage rates have made it impossible for most people to buy.

Credit card and auto loan delinquencies are surging. Millions of people who haven't made a student loan payment in years now have to pay up. Their credit scores are crashing due to non-payments. Gold surges when the financial system shows signs of collapse. All the ingredients are present for a catastrophic explosion, just waiting for a spark to ignite the volatile mixture. At this point, the financial system is so unstable and fragile that an otherwise inconsequential grain of sand added to the pile could precipitate the collapse.

I believe the chaos, confusion, conflict, and collapse of confidence portends a prolonged period of discord as this Fourth Turning accelerates towards its denouement. The numerous neocon forces in the EU and US attempting to prolong and broaden the Ukraine conflict, along with the Zionist efforts to provoke a war with Iran, have pushed the world to the brink of a new global conflict. All previous Fourth Turnings were decided by an all-out bloody war, and this one is likely to experience a similarly tragic outcome. The billionaire oligarchs have purposely created havoc and turmoil as a means to increase their wealth, power, and control over the politicians they have put into place to implement their new world order agenda.

The proliferation of assassinations and assassination attempts is a sign of increased vitriol towards those considered evil and expendable by their enemies. The assassination of corporate executives, attempts on Trump, and foiled plans against a Supreme Court justice and Musk mark a new violent turn to this Fourth Turning. Will someone try to take out some of these leftist judges who are impeding the will of the people on behalf of their leftist billionaire quislings?

Will the Ukraine and EU attempt to assassinate Putin, as they have done to numerous other Russian politicians? What I do know is there is a powerful faction attempting to initiate a global war as part of their new world order agenda. All it will take is for someone somewhere to do something stupid and then it will turn nasty, with more death and destruction than a reasonable American can possibly conceive after living in their false bubble of safety and security for decades. Once the dominos begin falling, there will be no stopping them.

"With so much chaos, someone will do something stupid. And when they do, things will turn nasty." – **Inspector Finch – V for Vendetta**

The burning of Tesla showrooms, brainwashed idiots committing acts of vandalism, and the Soros funded fake protests across the country are only infuriating the normies and pushing us closer to civil chaos. Russia rightfully accusing France and the UK of committing acts of war against energy sites within Russia, along with Trump fulminating about Putin not cooperating, while bombing the shit out of Yemen as instructed by Israel, has turned up the heat on the imminent global conflict.

The two Prophet generation lightning rods for the coming conflict, Trump and Putin, with **Bill Gates** and RFK Jr. as lesser players, will make the decisions and choices which will determine the future course of this world. In the previous two Fourth Turnings, Nomad Generation facilitators of Lincoln and FDR's strategy, **Grant, Sherman, Eisenhower**, and **Patton**, had to unflinchingly send hundreds of thousands of men to their deaths. Trump's Nomad Generation agent of change – **Elon Musk** – has concentrated on rooting out fraud, waste, and inefficiencies in the Federal government, provoking violence and revealing the traitorous henchmen within the judiciary and Soros financed NGOs. Putin's chief Nomad generation right hand man – **Dmitry Medvedev** – is a bomb thrower who thrives on conflict.

This Crisis period is accelerating and intensifying on a daily basis, as Trump, Putin and Xi, and a myriad of other world leaders provoke, posture, and threaten each other, with all signs pointing towards military conflict. The propaganda media, led by the NYT, are now admitting we have been at war with Russia since 2014. The entire conflict since 2022 has been funded and fought using U.S. technology, weapons, and personnel. Over $200 billion wasted on another lost war. Those of us in the alt-media revealed the truth about this proxy war years ago.

With Zelensky following orders from his EU benefactors, the fledgling peace efforts of Trump and Putin are destined to fail. The ongoing slaughter in the Middle East, along with the intense saber rattling regarding the U.S. attacking Iran on behalf of Israel, and the US declaring China as its largest military threat regarding their eventual takeover of Taiwan, are building towards a major global conflict, which the purposely distracted and dumbed down masses have no clue is approaching. Boomer leaders are unbending, punitive, authoritarian minded, and willing to risk the destruction of the planet in order to achieve what they have been assigned to accomplish by the globalist oligarchs calling the shots. In 1997, Strauss & Howe predicted the dangers we would face as the climax of this Fourth Turning approached.

"The risk of catastrophe will be very high. The nation could erupt into insurrection or civil violence, crack up geographically, or succumb to authoritarian rule. If there is a war, it is likely to be one of maximum risk and effort – in other words, a total war. Every Fourth Turning has registered an upward ratchet in the technology of destruction, and in mankind's willingness to use it." **– Strauss & Howe – The Fourth Turning**

"History offers no guarantees. Obviously, things could go horribly wrong – the possibilities ranging from a nuclear exchange to incurable plagues, from terrorist anarchy to high-tech dictatorship. We should not assume that Providence will always exempt our nation from the irreversible tragedies that have overtaken so many others: not just temporary hardship, but debasement and total ruin. Losing in the next Fourth Turning could mean something incomparably worse. It could mean a lasting defeat from which our national innocence – perhaps even our nation – might never recover." **– Strauss & Howe – The Fourth Turning**

Gold and Oil have been surging, with gold hitting new highs every day, up 38% in the last year, indicating all is not well in this world. The United States has been a nation for two and half centuries, only becoming an empire within the last one hundred years. Trump can pontificate about creating a new morning in America, but it is too late, as darkness descends upon the Republic created by strong courageous men, but slowly destroyed by weak cowardly men, moneyed interests, corrupt politicians, traitorous globalist billionaires, and a populace too dumbed down and distracted by technological bread and circuses to care about future generations.

In 1785 the Americans had won the Revolutionary War, but had not yet written the Constitution or elected a president in the final stages of the first American Fourth Turning. Exactly 80 years later in 1865, the American Civil War Fourth Turning reached its bloody conclusion. Exactly 80 years later in 1945, World War 2 was won, after the loss of 65 million lives. We are now exactly 80 years later in 2025, ready to write another dramatic chapter in the annals of history.

After World War 2, America was the conquering hero wearing the golden crown, but failed to heed the warning all previous empires had also ignored – **all glory is fleeting.** As we approach our rendezvous with destiny, take note, as described in the bible, that history is cyclical and there is a time for everything. I think everyone needs to understand we are entering a time of war, a time to hate, a time to kill, and a time to die. I wish it weren't so, but the cycles of history don't lie. Good luck and Godspeed.

To everything there is a season, and a time to every purpose under the heaven;
A time to be born, and a time to die; a time to plant, and a time to pluck up that which is planted;
A time to kill, and a time to heal; a time to break down, and a time to build up;
A time to weep, and a time to laugh; a time to mourn, and a time to dance;
A time to cast away stones, and a time to gather stones together; a time to embrace, and a time to refrain from embracing;
A time to get, and a time to lose; a time to keep, and a time to cast away;
A time to rend, and a time to sew; a time to keep silence, and a time to speak;
A time to love, and a time to hate; a time of war, and a time of peace.
